THE UNDERLYING FACTS

8. Commencing on or about April 29, 1991, Plaintiff came under the continuous care and treatment of the Defendant at her office located at 810 Abbott Boulevard, Suite 203, Fort Lee, New Jersey.

9. On or about April 20, 2015, Defendant performed an examination of Plaintiff and recommended that her tooth number 17, which defendant described as a "wisdom tooth" of the lower left jaw, be surgically extracted.

12. Defendant improperly performed the June 8, 2015 surgical tooth extraction and damaged the Plaintiff's left lingual nerve during the procedure.

13. Due to Defendant's failure to properly perform the June 8, 2015 surgical tooth extraction, thereby damaging Plaintiff's left lingual nerve, Plaintiff's left lingual nerve has been permanently injured, necessitating a repair and a surgical nerve graft of the left lingual nerve on September 8, 2015.

14. The medical care and treatment rendered by the Defendant was performed in a reckless, careless, and negligent manner and not in accordance with proper and accepted dental practice, as a result of which the Plaintiff suffered severe and permanent personal injuries.

15. An Affidavit of Merit is annexed hereto and is filed along with this Complaint, in accordance with N.J.S.A. 2A:53A, et seq.

SECOND COUNT AS AGAINST DEFENDANT

19. Plaintiff repeats, reiterates and realleges each of the foregoing allegations with the same force and effect as if more fully set forth at length herein.

20. The Defendant failed to inform the Plaintiff of the risks, hazards and alternatives connected with the procedures and methods utilized prior to, at the time of, and subsequent to treatment of the plaintiff.

21. Reasonably prudent persons in the Plaintiff's position would not have undergone the procedures and methods utilized in connection with the treatment rendered to the Plaintiff if they had been fully informed of the risks, hazards and alternatives associated with said procedures and methods and with defendant performing the procedures.

22. The failure to adequately and fully inform the Plaintiff of the risks, hazards and alternatives of the procedures and methods utilized in connection with the treatment rendered to the plaintiff was a proximate cause of the plaintiff's injuries.
